Three Services. Zero Blind Spots.

Shape finance into your strategic force for growth with solutions that fuse leading tech with proven know-how.

Finance as a Service (FaaS)

Modern finance, fully managed. Our Finance as a Service (FaaS) solution delivers people, processes, and our leading proprietary platform, SIMPL®, to handle all of your day-to-day operations.

Flex Finance

Get a back-office team that won't disrupt your tech and processes. Our Flex Finance Service manages books and reporting, and adds CFO or FP&A expertise when you need it.

Advisory Services

From FP&A to technical accounting and CFO guidance, when you're faced with big decisions, you need the clarity to move forward with confidence. Our Advisory Services help you navigate change.

Experience Where It Matters Most

Every industry comes with its own financial challenges, and we've built our expertise around meeting them head-on. Our team gives you solutions built for your world, not a template. We specialize in:

- Software/SaaS
- Health Tech/Services
- Professional Services
- Investment Management Firms
- Marketplace eCommerce
- Nonprofits

REINVENTING FINANCE

The End of Outdated Finance

Traditional finance is outdated—like flip phones. Consero delivers clear, scalable financial solutions in just 90 days, guaranteed.

Our Mission

To disrupt the way businesses achieve the financial clarity and scalability needed to drive them forward.

Our Vision

To be the preeminent provider of Finance as a Service (FaaS) to mid- market companies.

Our Promise

Cut finance time by 90%, simplify processes, and scale fast—so you can focus on growth in just 90 days.

• WHO WE ARE

About Consero Global

Consero was founded in early 2006 with the goal of providing small and mid-market companies with a superior alternative to building and maintaining an in-house finance function.

Since then we have expanded our solution offering strategy and funding services, operational financial services, financial controller services, bookkeeping and administration services and debuting our proprietary cloud-based software platform, SIMPL®.

This evolution has transformed us into a trusted partner, providing a full suite of services and our proprietary **SIMPL® platform** to give businesses the financial clarity and scalability they need to thrive. Our promise is to unify and clarify your numbers, reduce the time you spend on finances by 90%, and enable growth—all within 90 days, guaranteed.

NEXT-GEN FINANCE SERVICES

Redefining Finance With Tech

We aren't chasing the next wave of finance tech. We're using it to power business insights through a connected ecosystem that drives best-in-class performance and continuous innovation.

Get On Board

• TEAM EXPERTISE

Tech Curators for the CFOs Office

By leveraging billions of dollars in software investment from our partners like BILL and Sage Intacct, we bring clarity, control, and confidence to your financial decision-making. And through SOC 1 and 2 certifications, we keep everything secure in the process.

Our team knows how to apply finance tech across industries to engineer game-changing outcomes, get things right the first time, and move beyond transactions into intelligent collaboration between people and machines.

REINVENTING FINANCE

Know-How That Wins

Finance tech isn't only about the tools. It's also about knowing how to use them. Here are some of the ways our team makes it all click.

Integrated Systems

We unify platforms across your finance stack, so workflows, data, and people move in sync—no silos, no blind spots.

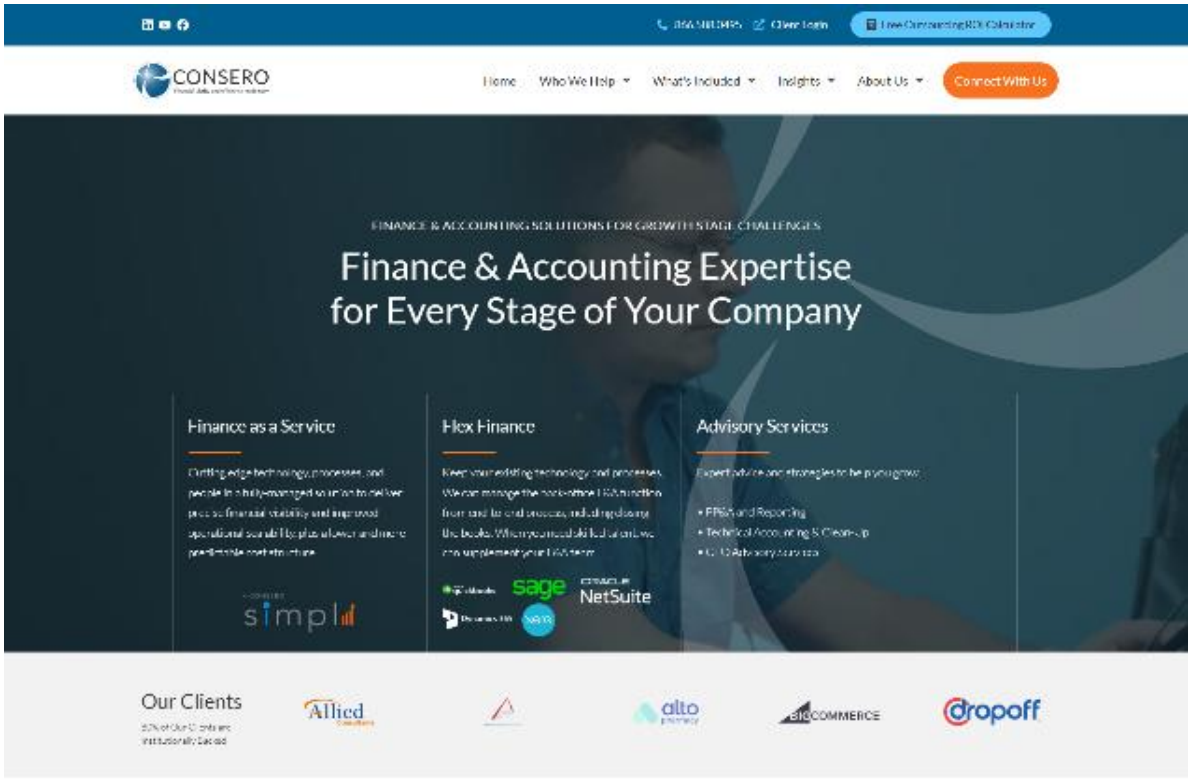

Data-Driven Insights

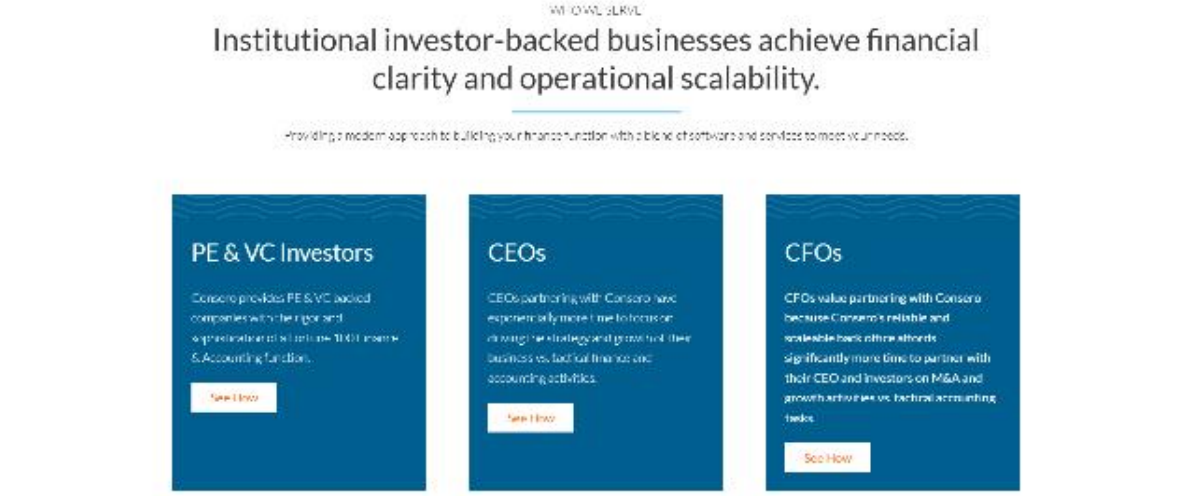

Get foresight, not just hindsight. With AI and analytics, we turn complex data into clarity and confident decision-making.

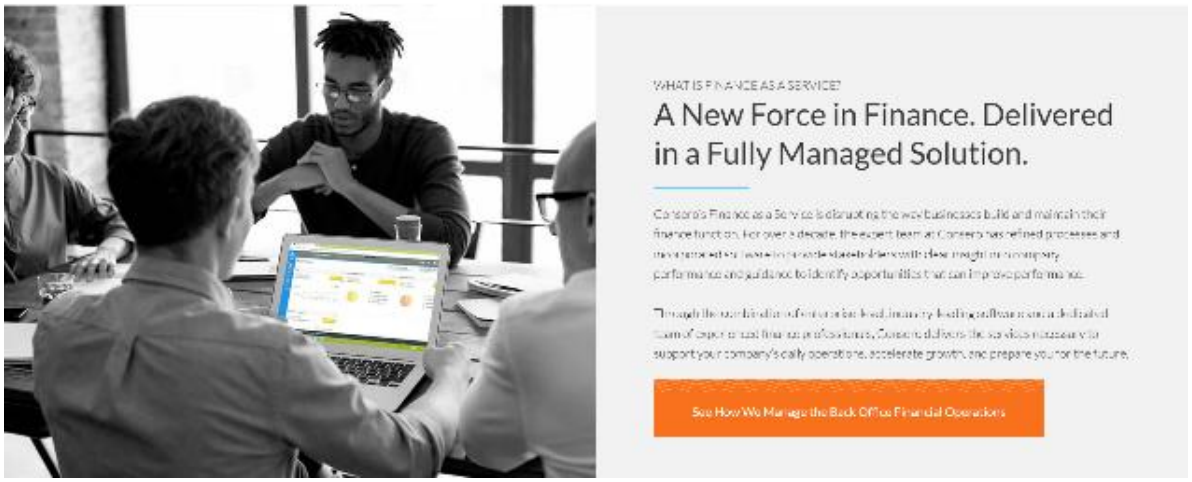

An AI-Enabled Future

We engineer outcomes, not just transactions—shaping finance with exception-based workflows and intelligent automation.
